

# Creek Camp: Environmental Science Allegheny College

This summer marks the 7th year for [Creek Camp](#)!! Creek Connections, Allegheny College, offers an environmental science, hands-on, residential camp for 9th and 10th graders (rising 10th and 11th graders) at our campus in Meadville PA.

## Reasons to attend Creek Camp

- \* Explore French Creek watershed and its amazing critters
- \* Hands-on... everything!
- \* Small camp (maximum of 12 campers)
- \* Meet teens from other schools/states/countries
- \* Work with Allegheny College professors, staff & students
- \* Interact with local environmental professionals
- \* A taste of college life
- \* Experience nature during the day... stay in a residence hall at night
- \* Great to have on your college application

[Creek Camp](#) focuses on French Creek, the most bio-diverse waterway in the state of Pennsylvania. Exploring the French Creek watershed offers the opportunity to see/experience interesting and unusual things. Check out the [photos of previous Creek Camps](#) as well as the [campers' blog](#)!!

Two sessions of Creek Camp are offered this summer (24-29 June and 8-13 July). Spaces are limited to 12 campers in each session. [Apply now!](#) Send no money with your application. We'll review the applications and let you know if you've been accepted by the end of May (possibly sooner).
